

Motor Mechanic

(General)

Motor Mechanic

ANZSCO Code: 321211

Occupation Description:

Motor Mechanics maintain, test and repair internal combustion engines and the mechanical parts of lightweight motor vehicles such as transmissions, suspension, steering and brakes.

Their job involves:

- › detecting and diagnosing mechanical and electrical faults in engines and parts
- › dismantling and removing engine assemblies, transmissions, steering mechanisms and other components, and checking parts
- › repairing and replacing worn and defective parts, reassembling mechanical components, and referring to service manuals as needed
- › performing scheduled maintenance services, such as oil changes, lubrications and engine tune-ups, to achieve smoother running of vehicles and ensure compliance with pollution regulations
- › reassembling engines and parts after being repaired
- › testing and adjusting mechanical parts after being repaired for proper performance
- › diagnosing and testing parts with the assistance of computers.

Motor Mechanics may also:

- › inspect vehicles and issue roadworthiness certificates or detail work required to achieve roadworthiness
- › respond to vehicle breakdown service calls

NOTE: This occupation is for motor mechanics working with light vehicles in the automotive retail, service and repair industry. It does not extend to heavy commercial vehicle, mobile plant, motorcycle or agricultural equipment mechanics or speciality areas such as automotive air-conditioning, brake or small engine mechanics.

How will I be assessed?

Stage 1: Documentary Evidence Assessment

1

We will review your documentary evidence to ensure it meets the employment and training requirements and indicates that you have the necessary skills, knowledge and experience as a Motor Mechanic.

You can find more information about the employment and training requirements, and the documents required in the Pathway 1, Pathway 2 and Evidence guides on our website.
